

STUDY SKILLS & SPEED READING
MANUAL
JULY 12-16

SPEED READING: Learn to read faster and understand more readily what you read. This skill is essential for high school students. Those students preparing for college admission tests like the ACT & SAT find this course particularly useful.

STUDY SKILLS: This program is designed to give entering 9th graders and rising 10th graders the motivation and academic skills needed to be successful in the secondary curriculum.

Use the form below to register.

Manual

Study Skills & Speed Reading

In Cooperation with Educational Resources

120 West Lee Street

July 12-16

Study Smart!!!

Learn Effective Academic Strategies:

- ✓ You reduce your study time.
- ✓ You develop greater self-confidence
- ✓ You raise your grades!

Study Skills

You will learn the most effective ways to listen, take notes, memorize facts, and study for exams. Also, you will identify your preferred learning style and set your personal goals and priorities. Keeping your planner and managing your time are essential to school success.

You will meet your new classmates, learn how to communicate effectively, and polish your classroom etiquette skills.

With these new academic skills, you will have less school stress, develop greater self-confidence, and raise your grades. This exciting learning-to-learn course challenges you to reach your own conclusions and think at higher levels. Prepare for the challenges of Manual's curriculum!

Speed Reading & Comprehension

Reading is the foundation for study skills. Discover how you can read faster and understand more!

You will eliminate poor reading habits. You will stop reading word-by-word and mumbling words to yourself. You will double or triple your reading speed!

You will increase your understanding of textbooks and pleasure books. As you understand more, you will remember more of what you read.

With your improved reading skills, your grades will go up! Homework will require less time.
